Highlights

Immediate beverage selection

Whether you want a cappuccino or an espresso, with the immediate beverage selection you can enjoy your personally customised beverage speciality at the touch of a button

Auto-cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water when starting up or switching off to deliver a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt when descaling is needed, the automated descaling process will start and guide you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

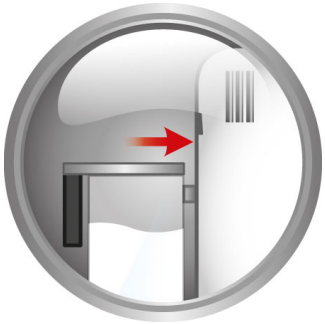
Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Double boiler for fast results

Dual and independent heating systems enable you to make as many Latte Macchiatos and Cappuccinos as you need, without any loss of performance.

Integrated automatic milk



Enjoy your milk specialities non-stop: it is possible to refill the carafe with milk even while the integrated milk frother is plugged in and working.

Memo function

You will always get a perfect cup brewed just for you, according to your personal preference, thanks to our Memo function with adjustable length, strength and temperature. Pressing a button is all you'll need to do to enjoy a superb beverage in your favourite cup.

100% Ceramic Grinders

Our ceramic grinders never overheat, ensuring perfect grinding, long-lasting performance and totally silent operation

Adjustable grinder granularity

8 grinder settings from the finest to a very rough grind.
